How is your facility responding to these challenging times? Are you prepared for the imminent low-occupancy winter?

ESD will provide a rapid Facility Assessment that can be tailored from the following menu:

COVID-19 Response Strategies
- Facility Readiness Checklist
- HVAC Systems and IAQ
- Public and High Density Spaces
- Toilet Rooms
- Security and Access Control
- Operations and Maintenance

Low Occupancy Risk Assessment
- Seasonal Impacts
- HVAC Systems and IAQ
- Tenant Supplemental and Process Systems
- Freeze Protection
- Perimeter Envelope and Infiltration
- Domestic Hot Water
- Fixture Maintenance
- Optimizing Energy Consumption While Maintaining Services

Unique Opportunity for Maintenance & Infrastructure Improvements

Intelligent Building Masterplanning

Retro-Commissioning

Budget Pricing and Turn-key Implementation

Life Cycle Cost Analyses with ROI
